PuraGraft® Cortical-Cancellous Allograft Bone

A natural mix of cortical and cancellous bone particles, offering the dual advantage of slow resorbing, space-maintaining cortical bone and relatively faster remodeling, optimally osteoconductive cancellous bone in one product – providing the best of both worlds.

- Available in the ideal micron size for socket preservation procedures (250-1000)
- Packaged in a convenient dappen dish for hydration.
- Available in 0.25cc jars for small periodontal defects
- Available in 5cc jars for large maxillofacial defects
- Terminally sterile product, 10-6 level sterility, with no cases of disease transmission

Item

CC-250-025	Mineralized Cortical-Cancellous Particulate 250-1000 Microns 0.25cc
CC-250-050	Mineralized Cortical-Cancellous Particulate 250-1000 Microns 0.5cc
CC-250-100	Mineralized Cortical-Cancellous Particulate 250-1000 Microns 1cc
CC-250-200	Mineralized Cortical-Cancellous Particulate 250-1000 Microns 2cc
CC-250-500	Mineralized Cortical-Cancellous Particulate 250-1000 Microns 5cc

PuraGraft® Bone Plug

The PuraFill® Bone Plug offers a simple and effective solution for filling extraction sockets and periodontal defects. Made from a synthetic calcium phosphate-based mineral with a carbonate apatite structure that is similar to natural bone, PuraFill combines approximately 80% graft particulate with 20% Type I bovine collagen.

PFPLG1020	PuraFill Bone Plug (10x20mm) 10 Pack
PFPLG625	PuraFill Bone Plug (06x25mm) 10 Pack

PuraGraft® Membranes

PuraExtend® Resorable Collagen Membrane

PuraExtend® is made from purified porcine dermis for optimal strength, handling and resorption balance. It provides long-lasting protection for 6-9 months maintaining adequate barrier function.

Item Number	Item
YSSPE15	PuraExtend Collagen Membrane 15x20mm
YSSPE20	PuraExtend Collagen Membrane 20x30mm
YSSPE30	PuraExtend Collagen Membrane 30x40mm

PuraFlex® Resorable Collagen Membrane

Highly conformable and easy to handle, PuraFlex® adapts to the surgical site, allowing the corners to tuck smoothly under the gums for precise placement. It provides a 12–16 week barrier function and resorbs in 3-4 months.

Item Number	Item
YSSPF15	PuraFlex Collagen Membrane 15x20mm
YSSPF20	PuraFlex Collagen Membrane 20x30mm
YSSPF20	PuraFlex Collagen Membrane 30x40mm

PuraGraft® Wound Healing

PuraGraft® wound dressings are absorbent, porous, collagen matrices engineered from purified collagen derived from bovine dermis tissue. They are indicated for use for denture sores, oral ulcers (non-infected or viral), periodontal surgical wounds, suture sites, burns, extraction sites, surgical wounds and traumatic wounds.

Item Number	Item
PGPLG+	PuraPlug+ Resorbable Collagen Plug 10x20mm
PGTPE+	PGTPE+ PuraTAPE+ Collagen Dental Dressing 1" x 3"
