

Say hello to Link AI:

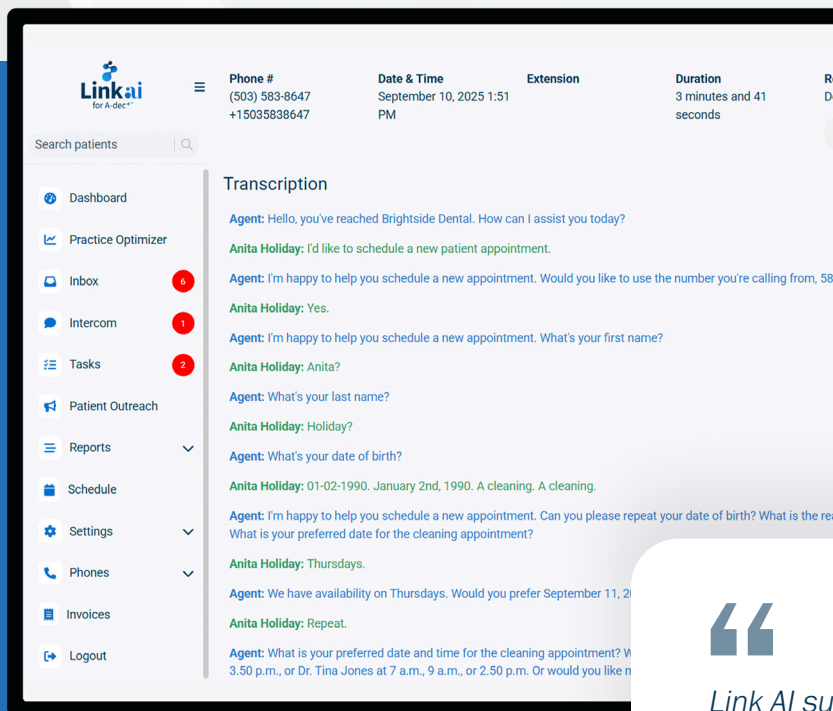

Your business coach/data analyst/
marketer/scheduler/receptionist all in one.

As a dental practice, you have an abundance of administrative responsibilities from staffing and scheduling to billing and patient communications... and everything in between.

Link AI is a software platform for dental practices that enhances efficiency and communication, boosts patient engagement, and drives practice growth with a comprehensive set of tools including AI-driven automation—and it keeps working even after hours.

Efficient. Seamless. Connected.

Why Link AI?

Optimize and Automate

Link AI acts as a nonstop virtual assistant automating scheduling, intake forms, payments, and patient inquiries.

Streamline Communication

Centralized patient communications seamlessly sync between office computers and A-dec 500 Pro equipment

Get Real-time Analytics

Smart dashboards gather data real-time so you can discover where inefficiencies are hiding.

Increase Engagement

Proactive outreach handles new inquiries, books from website, and automates targeted marketing campaigns.

Link AI supports our team, even after hours. It's like having another trusted colleague who's ready to help 24/7.
